REPORTS

None

PUBLIC FORUM

Dennis Patterson was introduced soon to be appointed Stormwater Advisory Board Member

NEW BUSINESS

Discuss and Consider the ERU Study presentation from Wilson & Co. Charles Loughman and Doug Goetz gave a presentation about Equivalent Residential Unit (ERU) method. Charles explained the process and that (ERU) method) is used by more than 80 percent of all stormwater utilities. It bills an amount proportional to the impervious area on a parcel, regardless of the parcel's total area. It is therefore based on the effect of a typical single family residential (SFR) home's impervious area footprint. After discussion and questions with the Stormwater Board from the previous meeting the group from Wilson & Co. meeting provide a scope and fee for the service for the City to have this ERU study performed the recommended City staff move forward with the presentation of the study by Wilson & Co for Discussion and Consideration.

ADJOURN

7:26 p.m.

Board Member Mike Louge made a motion to adjourn the meeting Board member Jeff Stone seconded the motion carried 4 -0
